LEVELS

Model P-L-360 TORPEDO BOX

Fixed plumb and level vials. Angle 0-360 degrees. Accuracy guaranteed for life. Magnetic measuring surface. Crystal clear, non-goffing, unbreakable, acrylic vials. Unique design inserts easily in tool pouches or pockets. Rugged box construction assures long useful service life.

<u>Length</u>	<u>Prod #</u>	<u>Per Each</u>
10"	*M1124	\$39.11

6' to 10' PLATE LEVEL (#33610)

Designed for the residential framer who needs fast and accurate wall installations. (Plumb plate to plate). Fully sealed, solid rail (6-sided) extension adjusts easily and locks firmly into place. Extension rail marked with plate height dimensions for quick adjustments. Soft brake prevents the rail from recoiling as you extend and withdraw it. Box frame has metal stand-offs on one side and is flush on the other. High strength aluminum with reinforced ribs. The plumb vial is permanently positioned 66-1/2" off of the floor and will not slide out of view when the extension is being used. Patented, epoxy-locked vial system never requires adjustment and are guaranteed for life.

BENDING BRAKES

MAX-I-MUM XL
Commercial Bender System

MAX-I-MUM XL PORT-O-BENDER SYSTEM: Bends and forms commercial metals on the job site. Used for commercial, architectural and industrial sheet metal fabrication. 19" (48,3 cm) throat depth with a 2 3/8" (6,0 cm) mouth opening. Constructed with light-weight, high-tech, anodized alloys for maximum strength, durability, and portability. Strong, computer designed die castings for the toughest jobs. Patented "Moving Pivot Hinge" increases bending power without marring materials. Quick, strong, and positive clamping. Unique hemming capability (180° overbends). Portable, for use in the shop or on the job site. Available in 8'6", 10'6", 12'6" and 14'6" lengths.

BENDING BRAKES (continued)

PRO CUT-OFF w/ Case

Quickly, safely and easily cuts up to .030 aluminum coil, PVC coated coil and all vinyl straight and accurate with a burr-free factory edge every time. Light weight aluminum construction built to last. Hardened and captured tool steel cutting knives for safety and durability. Saves time and labor in scoring and breaking off material, reduces scrap and eliminates knifing damage to costly bending hinges. Stores on the end of your Port-O-Bender for quick and easy access. Adapts to all series Port-O-Benders manufactured after 1995.
